

FOREWORD FOR THE 2nd EDITION

“Learning is expensive, yet ignorance costs more.”

Learning and teaching, two most arduous experiences of human being, are considered to have exceptional natures as well. Many scholars have tried long to explain the phenomena during which we 'learn' and 'teach'.

This book is a great contribution to its field in that it gives the basics in context with typical processes of learning and teaching. Dr. Kaya and his colleagues have their challenge of taking the reader of this book to a journey in the glamorous world of the most basic human experiences.

It is our own challenge to achieve the task of preparing this edition of the book without changing its authenticity. In this sense we expect the authors' and reader's courtesy for probable errors. I am indebted to our translators who created this edition with their responsibility and hardworking.

Assist. Prof. Dr. Ahmet Selçuk Akdemir
Co-Editor
